present*

# Archaeology of the Stars

Jennifer Martinez

Visiting Assistant Professor of Classics, Monmouth College

Please join the Monmouth College community to celebrate International Archaeology Day! Learn about the Roman origins of the names of the planets and constellations, and discover how ancient Greek and Roman civilizations interacted with the night sky. This celebration of International Archaeology Day will also include a viewing of the constellations and planets in Monmouth College's Adolphson Observatory! This event is free and open to the public, and is family friendly.

*Saturday, October 21, 2017*

*Lecture at 7:30pm, Pattee Auditorium,  
Center for Science and Business 100*

*Observation at 8:30pm, Adolphson Observatory,  
Center for Science and Business Roof  
Monmouth College*
